PROFESSIONAL SUMMARY Experienced Information Technology professional specializing in Cyber Security, Web Development, and Infrastructure Management. Proven track record in designing, deploying, and maintaining advanced security solutions, including Privileged Access Management (PAM) and Backup & Recovery systems. Adept at leading end-to-end technical projects, conducting Proof of Concepts (POC), and providing advanced troubleshooting to ensure zero-downtime secure access and the protection of critical enterprise assets. Highly adaptable and ready to contribute to remote, fast-paced environments.

CORE COMPETENCIES & SKILLS

- Cybersecurity: Cloud Security, Cyber Threat Intelligence, Malware Analysis, Privileged Access Management (PAM), Operational Technology (OT) Security.
- IT Infrastructure & Development: Web Development, Network Engineering, Backup and Recovery Solutions, Extended Detection and Response (XDR), Data Loss Prevention (DLP).
- Technical Methodologies: End-to-End Solution Delivery, Technical Pre-Sales, Proof of Concept (POC) Execution, Principle of Least Privilege (PoLP), System Diagnostics & Troubleshooting.

PROFESSIONAL EXPERIENCE

PT. Optima Solusindo Informatika Senior Technical Product Specialist 2024 - Present

- Spearheaded the end-to-end design, deployment, and administration of Privileged Access Management (PAM) solutions utilizing the Segura platform to secure critical organizational assets and infrastructure.
- Managed the complete technical lifecycle of cybersecurity and infrastructure projects, from initial client consultation and requirements gathering to final deployment and ongoing maintenance.
- Led client-facing technical meetings and delivered comprehensive product demonstrations to articulate the value and functionality of proposed security architectures.

- Delivered advanced technical support for PAM-related incidents, resolving complex integration issues and optimizing system performance to ensure zero-downtime secure access for authorized personnel.

- Designed and executed tailored Proof of Concepts (POCs) in prospective client environments, successfully proving the technical viability and business alignment of enterprise solutions.

PT. Bhayangkara Indonesia Bersatu Web Developer 2022 - 2024

- Developed and maintained responsive web applications, ensuring optimal performance and user experience.

- Collaborated with internal teams to design digital solutions aligned with organizational goals.

PT. Bharindo Indonesia Banten Web Developer 2019 - 2022

- Built and optimized web-based platforms, focusing on clean code and system reliability.

KEY PROJECT EXPERIENCE

- PT. MSIG Life (2025): Led the strategic deployment and architectural configuration of Senhasegura as the core PAM solution. Enforced the Principle of Least Privilege (PoLP) by establishing secure credential vaulting, automated password rotation, and granular access controls.

- PT. Arasis Awan Teknologi (2025): Architected and deployed a unified cybersecurity framework. Integrated robust backup infrastructure with XDR and DLP protocols, configuring high-frequency, automated backup schedules for Microsoft 365 environments.

- PT. Bayer Indonesia (2025): Spearheaded the integration of Acronis backup architecture within the corporate network. Designed and executed comprehensive POC testing to proactively resolve potential vulnerabilities.

- PT. Sinar Alum Sarana (2024): Executed the end-to-end onboarding and deployment of Acronis On-premises backup solutions. Conducted rigorous system testing and simulated disaster recovery scenarios to validate data integrity.

- PT. Sucofindo (2024): Directed the initial setup, configuration, and onboarding of advanced Acronis data protection software. Performed iterative testing and diagnostic troubleshooting to optimize backup workflows.

CERTIFICATION

- Certified Network Security Specialist
- Certified Cyber Security Educator Professional
- Acronis Cyber Protect Tech Pro
- Cyble Certified Solutions Engineer
- Segura PAM Core Specialist
- Acronis Cyber Protect Tech Pro
- Advanced Security - Acronis
- Cloud Tech Professional

EDUCATION

Universitas Terbuka Bachelor's Degree in Information Technology 2022 - 2026

SMAN 09 Kota Tangerang Selatan High School Diploma 2018 - 2022

ORGANIZATIONAL LEADERSHIP & EXTRACURRICULAR EXPERIENCE

- Rapid Response Team (Tim Reaksi Cepat Pramuka), South Tangerang Branch (2021-2024): Served in emergency and rescue operations, including the Sriwijaya SJ-182 Rescue Team (2021).
- Scout Branch Work Council (Dewan Kerja Cabang Pramuka), South Tangerang (2019-2024).
- Secretary, Satuan Karya Wira Kartika KODIM 05 06 Tangerang (2023).
- Soft Skills: Survival Training, Mountaineering, Land Navigation (IMPK), Emergency Rescue.
